

TRP Aluminium Wheels

TRP Aluminum Wheels are up to 50% lighter than most steel wheels. Lighter wheels help extend the life of suspension components and tyres and can even help improve fuel efficiencies.

TRP Aluminium Wheels also run cooler than steel wheels which reduces stress on tyres and braking components. This can result in lower maintenance, cost savings and longer life.

TRP Aluminium Wheels

- Up to 50% lighter than most steel wheels
- Dissipate heat better than steel, means less stress on tyres and brakes
- Corrosion resistant
- ISO 9001:2000 certified
- 5 year warranty

TRP Aluminium Wheels

Product Information

Specifications

TRP	Size	Bolt Hole	PCD	Finish	Warranty	Weight
8-22-285B1	22.5 X 8.25	26mm	285.75 x 10	Buffed	5 years	21.8kg
8-22-285P1	22.5 X 8.25	26mm	285.75 x 10	Polished (Inside and Outside)	5 years	21.8kg
8-22-335P-32MM	22.5 X 8.25	32mm	335.75 x 10	Polished (Inside and Outside)	5 years	22.7kg
8-22-335P	22.5 X 8.25	26mm	335.75 x 10	Polished (Inside and Outside)	5 years	22.9kg

- 8-22-335P-32mm is suitable for most European applications including DAF

Features and Benefits

- Up to 50% lighter than most steel wheels. Reduced weight can also help improve fuel efficiencies.
- Better heat dissipation than steel ensures less stress on tyres and braking components.
- Aluminum is tougher than steel when measured under the same road conditions
- 5 year warranty
- ISO 9001:2000 certified
- Dynamic radial fatigue tested to 3363.6 Kg (7400 lbs) as per SAEJ267 means these wheels are built to withstand the heaviest loads.

TRUSTED. RELIABLE. PROVEN.
