

Wheel Bearing Sets

SET401TRP

The TRP® wheel bearing program offers the most popular wheel bearing sets for truck and trailer applications.

TRP Bearings are manufactured with high quality steel and meet ISO/TS 16949:2009 standards. TRP-packaged tapered roller bearing sets are designed to meet the quality and exceed the performance requirements demanded in Australian applications.

Features & Benefits

- High load carrying and running accuracy.
- Each Bearing is inspected to the zero defect level.
- High performance even under adverse conditions.
- Lower Level of vibration and lower noise intensity.
- Bearing kits SET401TRP and SET403TRP are both rated transmission quality bearings and are specifically produced to suit drive axles
